Meeting Purpose and Focus

The Digital Delivery Stakeholder Group (DDSG) is a collaborative initiative led by FHWA to coordinate and integrate various digital delivery efforts across the transportation sector.

The DDSG is an open group that brings together representatives from State Agencies, AASHTO Technical Committees, and Industry.

Transforming Highways Through Digital Delivery

The Digital Delivery Stakeholder Group (DDSG) is a national forum led by the Federal Highway Administration (FHWA) and supported by the National Institute of Building Sciences (NIBS). It brings together public agencies, industry partners, academia, and standards organizations to advance digital delivery practices across transportation infrastructure.

Digital delivery integrates data and technology across all stages of project delivery—from planning and design through construction and operations—to improve safety, efficiency, and collaboration. DDSG connects leaders and innovators across the highway community to accelerate this digital transformation and build a smarter, more resilient highways system for the nation.

Join us as we shape the future of digital project delivery.
